

PETROX RESOURCES CORP.

**FORM 51-102F1
MANAGEMENT'S DISCUSSION & ANALYSIS
FOR THE THREE MONTHS ENDED MARCH 31, 2022**

The following discussion and analysis should be read in conjunction with the financial statements of the Corporation for the three-month period ended March 31, 2022 and all of the notes, risk factors and information contained therein.

Date

This management discussion & analysis ("MD&A") is dated May 27, 2022 and is in respect of the three-month period ended March 31, 2022.

Overall Performance

Petrox Resources Corp. ("Petrox" or the "Corporation") was incorporated under the *Business Corporations Act* (Alberta) on February 25, 2011. On December 29, 2011, Petrox completed its initial public offering of 3,000,000 common shares at a price of \$0.10 per share for gross proceeds of \$300,000 and was classified as a Capital Pool Company as defined in Policy 2.4 of the TSX Venture Exchange ("Exchange").

On May 31, 2012, the Corporation completed its Qualifying Transaction under the policies of the Exchange, which consisted of the acquisition ("Acquisition") of certain oil and gas assets (the "Richfield Assets") from Richfield Oils Inc. Pursuant to the Acquisition, Petrox acquired the Richfield Assets from Richfield, in exchange for which the Corporation issued to Richfield an aggregate of 3,000,000 common shares in the capital of the Corporation at a deemed price of \$0.25 per common share for a total deemed price of \$750,000.

On June 2, 2014, the Corporation completed the acquisition of certain oil and gas properties located in the Fletwode area of Saskatchewan ("Fletwode Properties") for \$2,100,000. These properties include six oil producing wells with a combined producing rate of approximately 40 barrels per day and a total proven plus probable reserve of 166,000 barrels.

On September 1, 2015, the Corporation announced that the amalgamation agreement providing for the proposed amalgamation transaction between the Corporation and Shanghai Sinoil Energy Holding Corporation has expired and was then terminated. The termination of this proposed amalgamation was due to a number of factors, including the substantial drop in the oil price and the volatility of the oil market since the fall of 2014.

On November 14, 2018, the Corporation announced that it has terminated the Amalgamation Agreement among the Corporation, TrueNorth CX Inc. ("TrueNorth") and Petrox's wholly owned subsidiary, 2123054 Alberta Ltd.

On January 10, 2020, the Corporation announced that the letter of intent signed with Travel Plus has expired and was terminated. The termination of this proposed reverse take-over transaction was primarily due to Travel Plus's desire to carry out a corporate restructuring.

On April 1, 2020, the Corporation announced that the letter of intent signed with Good Time Mega Trade International Limited has expired and has therefore terminated. The parties elected not to extend the letter

of intent due to the impact on the business of Good Time with the global economic uncertainty as a result of the Covid-19 pandemic.

At the beginning of April 2020, the Corporation shut-in its oil producing wells at its Fletwode property in Saskatchewan due to low oil price resulted from the coronavirus pandemic. In June 2020, the Corporation restarted the production of its Fletwode property with the improvement of oil price.

During the year of 2021, the Corporation had a reversal of impairment of assets expense of \$102,000 due to the significant increase of oil price during the year.

Results of Operations

Production

For the three months period ended March 31, 2022, the Corporation recorded a total production of 1,752 barrels compared to 1,890 barrels in 2021 and an average daily production of approximately 19.47 boe/d compared to 21.12boe/d in 2021 from its production property in Fletwode, Saskatchewan. The decrease in daily production was primarily due to natural production decline of the producing properties and shut-in of two production wells resulted from shut-in of a water well for repair during the period.

Sales Revenue

For the three months period ended March 31, 2022, the Corporation recorded sales revenue before royalty payment of \$223,837 compared to sales revenue of \$109,486 in 2021. The increase in sales revenue is attributable to higher sale volume and oil price. In the first quarter in 2022, the Corporation received an average sale price of \$112.52 per barrel comparing to \$63.69 per barrel in 2021 and sold 1,989 barrels of oil comparing to 1,719 barrels in 2021.

Royalties

For the three months period ended March 31, 2022, the Corporation recorded total royalties of \$5,195, representing 2.32 percent of revenue, compared to \$3,993 in 2021 representing 3.6 percent of revenue.

Operating Expenses

For the three months period ended March 31, 2022, the Corporation incurred operating expenses totalling \$71,503 compared to \$76,491 in 2021.

General and Administrative Expenses

For period ended March 31, 2022, the Corporation's general and administrative expenses were \$67,541 compared to \$57,651 in 2021.

Depletion and Depreciation

For the three months period ended March 31, 2022, the Corporation incurred \$11,593 or \$6.62 per boe in depletion and depreciation expense compared to \$11,681 in 2021 or \$6.18 per boe.

Cash Flow

For period ended March 31, 2022, the Corporation had a cash used in operations of \$50,849 compared to a cash used in operations of \$24,896 in 2021.

Net Income

For period ended March 31, 2022, the Corporation had a net comprehensive income of \$65,974 compared to a net comprehensive loss of \$41,414 in 2021. The increase in net comprehensive income was primarily due to the increase in revenue as a result of higher sale volume and higher oil price. In the first quarter in 2022, the Corporation received an average sale price of \$112.52 per barrel comparing to \$63,69 per barrel in 2021 and sold 1,989 barrels of oil comparing to 1,719 barrels in 2021.

Liquidity

As at March 31, 2022, the Corporation had working capital of \$196,205, primarily comprised of cash, deemed sufficient for the Corporation to meet its ongoing obligations in the coming year.

There can be no assurance that the Corporation will be able to obtain adequate financing. The securities of the Corporation should be considered a highly speculative investment. The following risk factors should be given special consideration when evaluating an investment in any of the Corporation's securities.

The Corporation has not generated sufficient revenues and does not expect to sufficient revenues in the near future. In the event that the Corporation generates sufficient revenues in the future, the Corporation intends to retain its earnings in order to finance further growth. Furthermore, the Corporation has not paid any dividends in the past and does not expect to pay any dividends in the foreseeable future.

Outlook

The company shut-in its oil production wells in its Fletwode property in Saskatchewan for several months in 2020 due to low oil price as a result of the Covid-19 pandemic. With the improvement of the oil price, the company restarted its production at its Fletwode property in June, 2020. Since then, the company has continued to experience further improvement in its operation with the increase of oil price as the world economy has recovered significantly from the economic downturn caused by the Covid-19 pandemic
